The Essential Reference on Passive Safety:

Designing Safer Roadsides
A Handbook for Highway Engineers

Edited and published by David Milne
in conjunction with TEC Magazine

Cost: Normally £45.00 + £3.00 p&p
SPECIAL OFFER for registered members of thepassiverevolution.co.uk:
£22.50 + p&p

Launched at the Midlands ‘Designing Safer Roadsides – The Passive Revolution’ Seminar / Crash Demonstration event
in May 2008

This book contains wide ranging content on passive safety, including advice on:

- The UK standards relevant to passive safety
- Why, where and how passively safe street furniture should be used
- Norwegian experience with passive safety over 10 years
- Road safety in Sweden and ‘Vision Zero’
- Passively safe lighting columns – the Finnish experience
- Electrical safety for passively safe lighting columns and illuminated signs
- Advice on specifying of parapets, crash cushions and barriers
- The police Road Death Investigation Manual and its implications for engineers
